

Beyond Abilities Centre

OPENING SOON IN NEWMARKET!

Beyond Abilities Centre (BAC) is pleased to announce upcoming opening of Revivo Neurology Treatment Centre's Newmarket location, which will be offering its renowned Intensive Suit Therapy programme.

This enhanced Physiotherapy method also known as TheraSuit or Adeli Method utilize unique benefits of a specially designed therapeutic suit originating from space medicine, combined with most effective modalities of traditional physiotherapy.

This therapy has made a revolution in Europe and USA within the last 2 decades in treating a wide scope of neuromuscular disorders including Cerebral Palsy, Brain Injury, Post-Stroke (CVA), etc. Revivo clinic has been successfully using this method treating patients at its Toronto location since 2012.

Intensive Suit Therapy significantly accelerates progress and within short periods of time allows patients make sustainable gains, which they may not be able to achieve with traditional therapy or would take many months or years to achieve.

To optimize effect of the treatment in each individual case, Revivo therapists adapt the Intensive Suit Therapy protocol to specific conditions and abilities of every child or adult patient.

We are inviting you to take advantage of early registration so that we find and reserve best available time slots for your child.

*More information and details about the programme will be offered to you at **Beyond Abilities Centre Workshop - December 7, 2017.***

To register, call BAC at 905-478-2888 or visit us online.
